

Outdoor Resorts Orlando – Lot Finder MAP

This “Lot Finder Map” will help you find a lot number quickly.

How this is organized:

This map is divided into four sections with thin RED lines.

- South West SW
 - South East SE
 - North West NW
 - North East NE
-
- Lots that touch each other (or almost do) are considered a “BLOCK”.
 - Each BLOCK will have the lowest lot number indicated with a black dot.
 - A thin black arrow will point from the end of one highlighted color to the next color’s black dot, or where there is a jump on lot numbers.

The **KEY** in the lower right corner is organized by

- 1) Lowest to ending lot number range
- 2) The park section (SW, SE, NW, NE) of the **lowest lot number of the color grouping.**
- 3) The highlighted color of all the lots in the range
(Yea – In the Lot Key I didn’t color highlight lot numbers 508-998. But you can see the corresponding colors in lots 1-508.)

FYI - I keep a copy on my phone, where I can zoom in to better see the numbers, and help that occasional wanderer.

Happy lot finding!

Kevin Lot 819 or MartynKP4@gmail.com for corrections/comments.
