

Hello, my name is Dawn Jackson. My husband and I have been homeowners since 2019. We love this community and have enjoyed meeting all the unique people who call this home.

I have been active in our community by being a member of the E&E committee, assistant treasurer as needed, hearth decorating, outdoor clubhouse decorating committee, and as part of the Welcome Committee. I regularly attend ORO events and love meeting new people.

In my work life I serviced 5 1/2 years active duty in the United States Air Force as an Aerospace Ground Mechanic, attending several classes to enhance my career including leadership training.

In the civilian world I completed a degree in Health Information Management and passed my national boards to become a Registered Health Information Technician. I served in a variety of roles with various health systems until my final role as Director of Medical Records, HIM, and Coding for a Minnesota-based health system. I supervised a decent-sized staff and was in charge of creating/maintaining my department budgets, writing job descriptions, and writing/updating policies to reflect current state of work. In addition to my paid position, I was also the secretary for the Hospital Board of Directors.

I would love to use the experience I have gained in my professional life to serve on the ORO board and represent the people of our great community.

Thank You,  
Dawn Jackson
