Hello Friends,

First, a **Big** thank you!!!!

I have been asked to prepare a short Bio...

I am proud to be in ORO and a member of the **ORO Property Owners Association**

I see great things for this association and the people who reside here...my wife and I have been here for close to 10 years. Having a very diverse background which has helped me in many areas of my life, Education was important to my Dad (which I did) but my mom was more about understanding people and how we all get along.

I have lived in many places in the United States. My favorite Place would have to be North Carolina, but I also like Boston, Kansas City, Buffalo, and even parts of New Jersey. I'm even learning to love Florida in the summer, did I say "Hot!"

You need to know that I have an extensive background in construction and Construction Management with companies like National Steel, Betco, Alumax building Products, Wheeling Pittsburgh Steel, Rhoades Custom Home Builders. I have been in charge of large and small budgets, generally I consider Forensic tax accounting and bookkeeping a strong asset. But when you know Geometry, building is fairly easy.

I have owned numerous small Businesses and consider that quite an education. Thinking of this I reflect on "The old fashioned sweet shoppe", "Lewisville Hardware Store" and Fidelity Insurance Advisors, a private fiduciary firm helping people pass on their assets.

I have had high pressure jobs on national TV, as an NCAA DIV 1 umpire. Currently, I'm learning to live on a fixed budget but I haven't mastered that yet so I do some part time things..
