George Bernie Tuttle

521 Oakwood Dr., Bellefontaine, OH 43311

9000 U S Highway 192, Lot 807, Clermont, FL 34714

Born and raised in Cincinnati, Ohio – Age 75. Attended the University of Dayton and received a B.S. Degree in secondary education. Was awarded a Graduate Assistantship in the College of Education where I obtained my M.S. Degree in Education with a Major in Guidance and Counseling.

Married to Bonnie Killam, a Michigan gal, for 46 + years. Bonnie received her B.S. Degree in Special Education from Wayne State University and her M.S. Degree from Wright State University. Bonnie was an Elementary Special Education Teacher for 35 years. Bonnie passed away in July 2017 from cancer.

We have two children. Our son Jason graduated from the Ohio State University and Franklin Pierce Law Center where he obtained his law degree. He works for the Target Corporation in Philadelphia, Pennsylvania. His wife, Keely is the Nursing Administration Coordinator at University of Pennsylvania Hospital in Philadelphia. Our daughter, Anne Canaday, a graduate of Bowling Green State University, lives in Greenville, Virginia, with her husband William, who works for Caterpillar, and is a carpenter, who owns a House Renovation Company where he also makes custom furniture. They have two children. Anne is the Procurement Manager for Modine Manufacturing Company.

I became property owner at ORO in December 2014, when I purchased unit 807.

I met a wonderful lady, Becky Horan, from Dayton, Ohio and we became engaged last Valentine Day at ORO.

After graduating from the University of Dayton I was a guidance counselor in a high school in Dayton, Ohio. We moved to Delaware, Ohio where I was appointed Guidance Supervisor at Delaware Joint Vocational School. I eventually became Principal/Director of Delaware JVS, a school that served 4 area high schools in the County.

While living in Delaware County I was active in community affairs becoming Chairman of the Red Cross Board as well as a Board Member of the Sheltered Workshop for Disabled Individuals.

I took a position as Supervisor of Adult Education at a larger vocational school in Bellefontaine, Ohio, Ohio Hi-Point JVS, which served 14 area high schools in a 5 county area of west central Ohio. I eventually became Director of Adult Education at the school. The Adult Education Department had more than 10 full time employees and over 25 part time instructors. The department provided customized training for business and industry in that 5 county area. One of our biggest clients was Honda. In addition to the business and industry, we also provided training for Firefighters, EMTs, a Police Academy and a Licensed Practical Nursing Program.

I retired from Ohio Hi-Point in 2001 and went to work for the Ohio State University at Lima, Ohio, where I provided customized training to business and industry. After work for OSU for 1 ½ years, I became the Principal for the Alternate School in Logan County for 3 years until it closed due to lack of funds from the State. I then became a Consultant for Logan County Job and Family Services Department. I conducted monthly classes to help clients find employment.

While living in Logan County, it has been my pleasure to serve as President of the Logan County United Way, President of Kiwanis Club of Bellefontaine and to serve on the Board of Logan County Board of Developmental Disabilities for 15 years. I served as a Board Member, Secretary and Vice President.

I am a member of St. Patrick Church in Bellefontaine and St. Faustina in Clermont.

While serving on the Board of Directors the last six years I have served as the Board Representative of the golf committee. I arranged for John Fogel, President/CEO of Cypress Golf Management, to meet with the golf committee, board members and maintenance to walk the golf course to make recommendation on the greens, types of fertilizer and weed and insect control to use. This was at no cost to ORO. This last year I served as Secretary of the Board.

I am currently on the sewer task force working under leadership of Bob McNeely with Craig McCoy and Russ Howerter and other task force members to come up with a cost effective solution for our infrastructure at ORO.

I would like to use the experience I have gained the last six years, as a Board Member, to improve the quality of life for all our residents at ORO.

Thank you for your consideration as you vote.
