

## Outdoor Resorts Orlando – Enhanced Lot MAP

This “Enhanced Lot Map” will help you find a lot by following arrows and color coded blocks. This map also has bridge numbers.

How this is organized:

- Lots that touch each other (or almost do) are considered a “BLOCK”.
- Each BLOCK will have the lowest lot number indicated with a black dot.
- A thin black arrow often points to next Lot, if its not next to it.

The **KEY** in the lower right corner is organized by

- 1) Grouping of 100 Lot numbers.
- 2) The color of all the lots in the range.
- 3) An image of bridge numbers.

To use,

- Look in the KEY find the range that has the lot number then look for the matching color.
- You can start at #001 and follow the arrows.

Useful Hint - Keep a copy on your phone, you can help that occasional wanderer.

Have fun and get bewildered less!
